## What's this

This ICO will not give you any yield, capital return, any card or any participation because there is no project behind. This is an ERC-20 contract that, based on probabilistic calculations, will let win Ether to the lucky ones

## Why buy this

Because in addition to receiving LEToken you have the chance to win many other LEToken and above all to win Ether as reported in the explanations below

If you want to try your luck and participate in ICO this is the address

**0xc98392308F391AB8B67087E7A2101cde21773e9D**

Minimum 150,000 Gas. You can view the token contract and transactions on [Etherscan](#).

## Bonus

You have the chance to win ETH and Token.

For 1 ETH you receive 25000 LET so every contribution of **0.02 ETH will get 500 LET**. For each transaction of at least 0.02 eth, an algorithm creates a random number through block data and as a result checks whether the transaction is a winner.

Lucky Ethereum ICO gives you the chance to win Ether, there's 1/10 chance to get back your Ether, 1/500 to **win 0.5 ETH**, 1/1500 to **win 1 ETH** and 1/5000 to **win 4 ETH**. In addition you have a 1/5 chance of releasing 1, 2, 3, 4 or 5 times the bonus tokens to add at the token issued.

## Chance of Victory

The more *you* contribute the more *you* win.

This is the probability table, for each transaction **above 0.02 ETH** you have the chance to win a prize in ETH and/or Token. Starting from 1/10 to win the amount you contributed.

Chance	Prize	Num. Win	Total Win \$
1 / 5000	4 ETH		
1 / 1500	1 ETH		
1 / 500	1/2 ETH		
1 / 10	Your Contribution		

## Frequently asked questions

### How to join the LET ICO?

You can join by sending ETH at the contract address and automatically receive Lucky Ethereum Tokens, bonus and ETH if you won.

### Which wallet to use?

Any ERC20 smart contract compatible wallet and use a gas limit of 150,000 or more.

### Is there a minimum amount?

The minimum amount to attend and try the luck and win prizes is 0.02 ETH. So I do not suggest paying more but doing more transactions to increase the probability of winning ETH and Token Bonuses.

### Is it a scam?

No, you can check the contract on [Etherscan](#).

### Will LET be traded on any exchanges?

It depends on the success of the ICO.

### Can I be refunded for the tokens I bought?

No, before investing and risking your ETH think well.
